

OTTOBAUTHENTIC

Let's Talk... we're looking for:

**AI SPECIALIST**  
**Pharmaceutical Industry**  
**Parktown, JHB**  
**Salary: Negotiable**

**Role:**

- ⑧ The AI Specialist will be responsible for leveraging artificial intelligence (AI) and machine learning (ML) to optimize healthcare and pharmaceutical operations, enhance patient outcomes, and streamline data-driven decision-making.
- ⑧ This role will focus on automating manual processes, improving data analysis, and deploying AI-powered solutions for clinical, research, and administrative functions.
- ⑧ The specialist will collaborate with business and IT teams to identify AI opportunities, design and train machine learning models, and ensure seamless integration with enterprise infrastructure.
- ⑧ They will also develop an AI adoption roadmap, ensure compliance with ethical AI standards and data privacy regulations, and provide training to teams for successful AI adoption.
- ⑧ Additionally, they will oversee the deployment, monitoring, and continuous optimization of AI solutions to ensure long-term value and scalability.

**Qualifications and Accreditations**

- ⑧ The AI Specialist will be responsible for leveraging artificial intelligence (AI) and machine learning (ML) to optimize healthcare and pharmaceutical operations, enhance patient outcomes, and streamline data-driven decision-making.
- ⑧ This role will focus on automating manual processes, improving data analysis, and deploying AI-powered solutions for clinical, research, and administrative functions.
- ⑧ The specialist will collaborate with business and IT teams to identify AI opportunities, design and train machine learning models, and ensure seamless integration with enterprise infrastructure.
